

tubulin-specific chaperone D

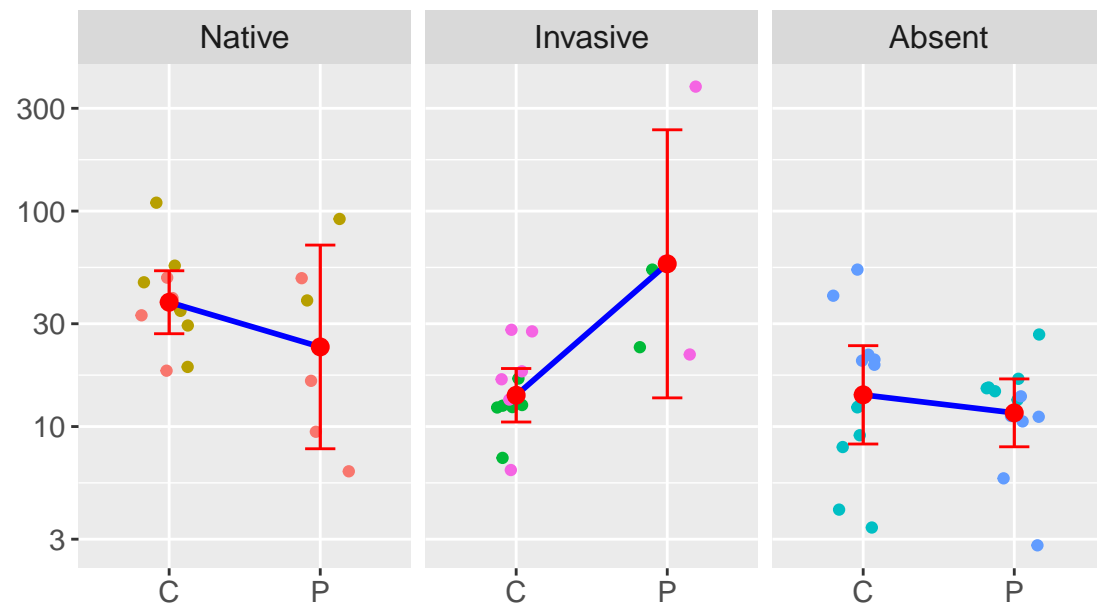

5-methylcytosine rRNA methyltransferase

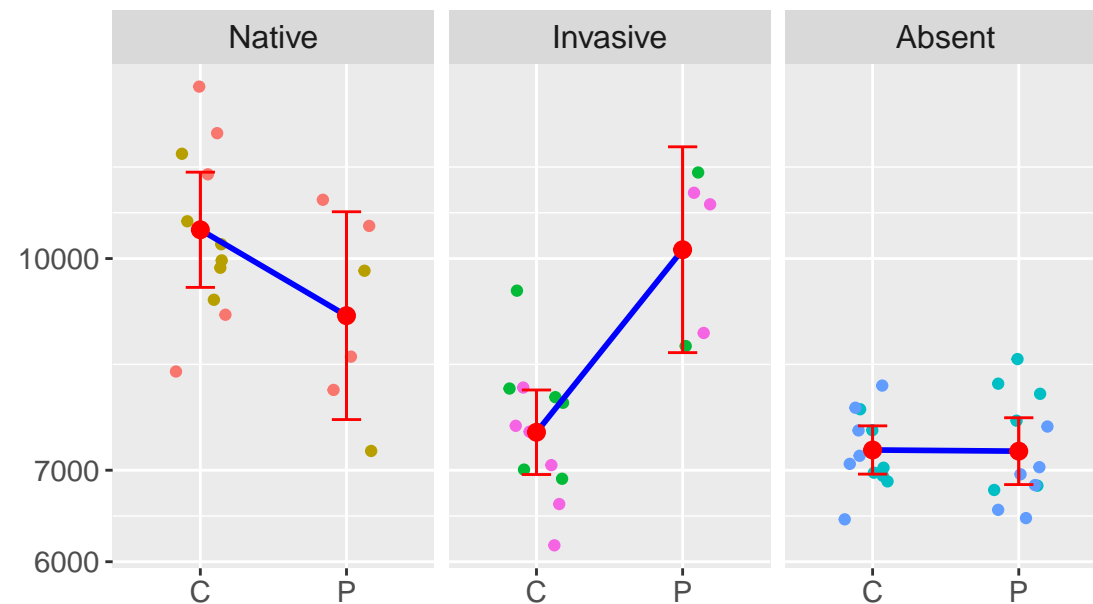

prosaposin-like

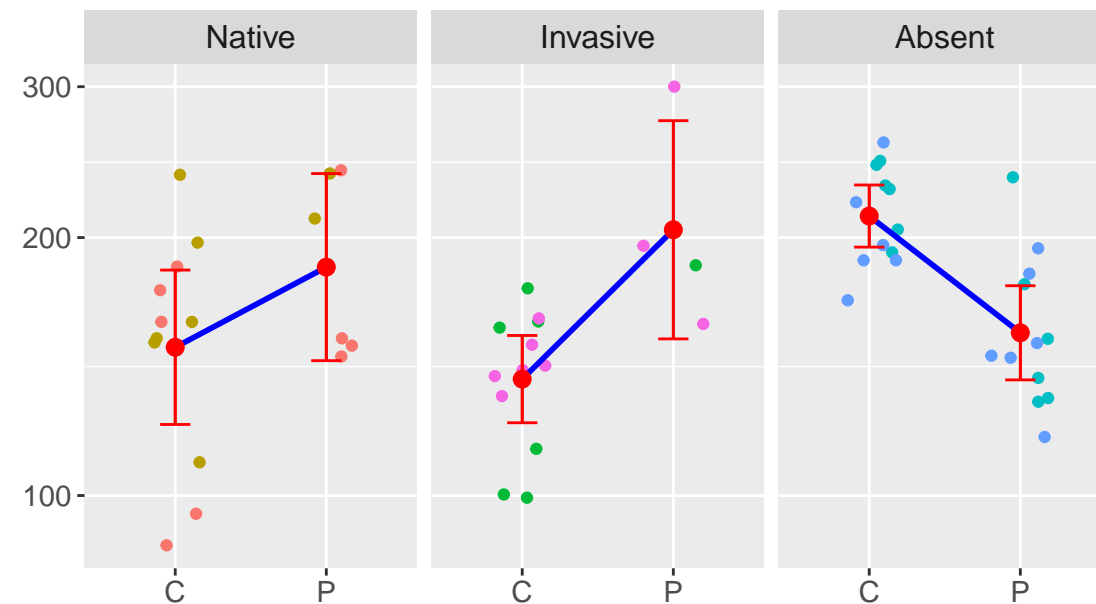

ribosomal protein 24

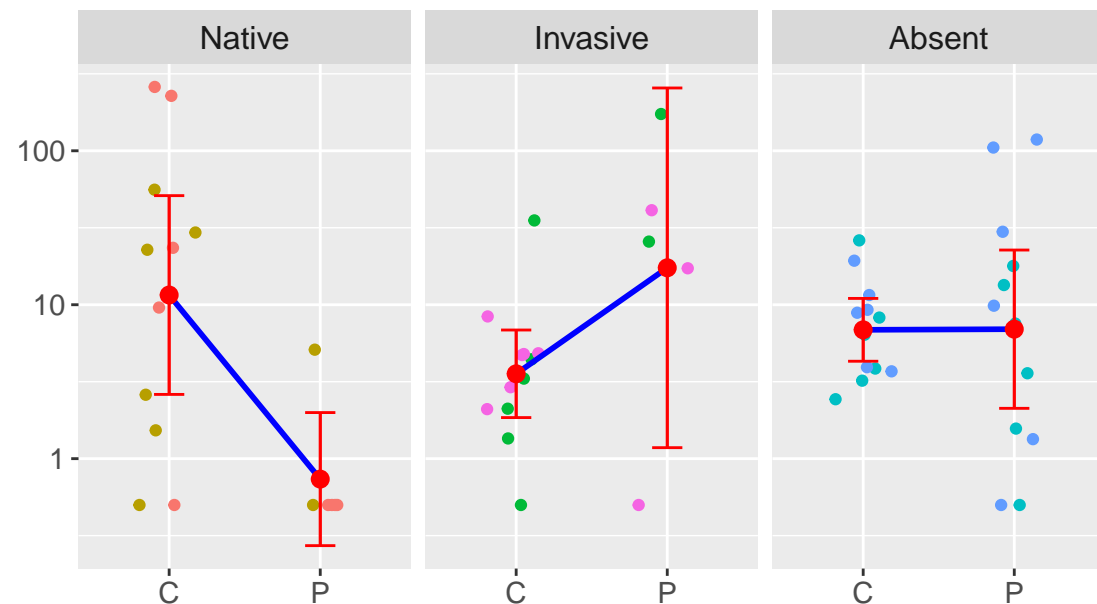

spectrin alpha chain-like

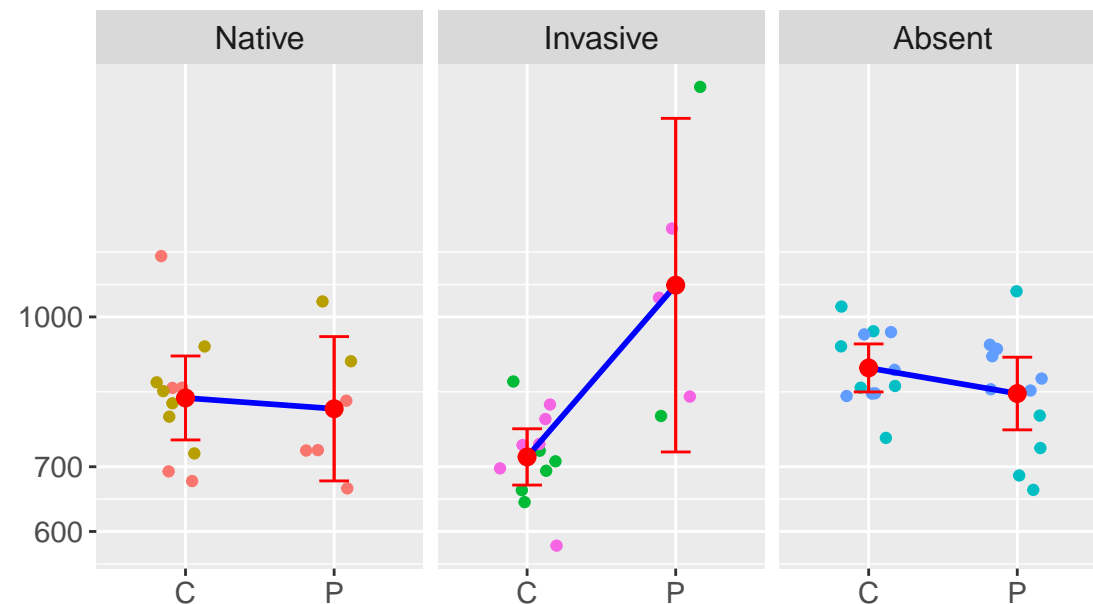

glucuronokinase 2

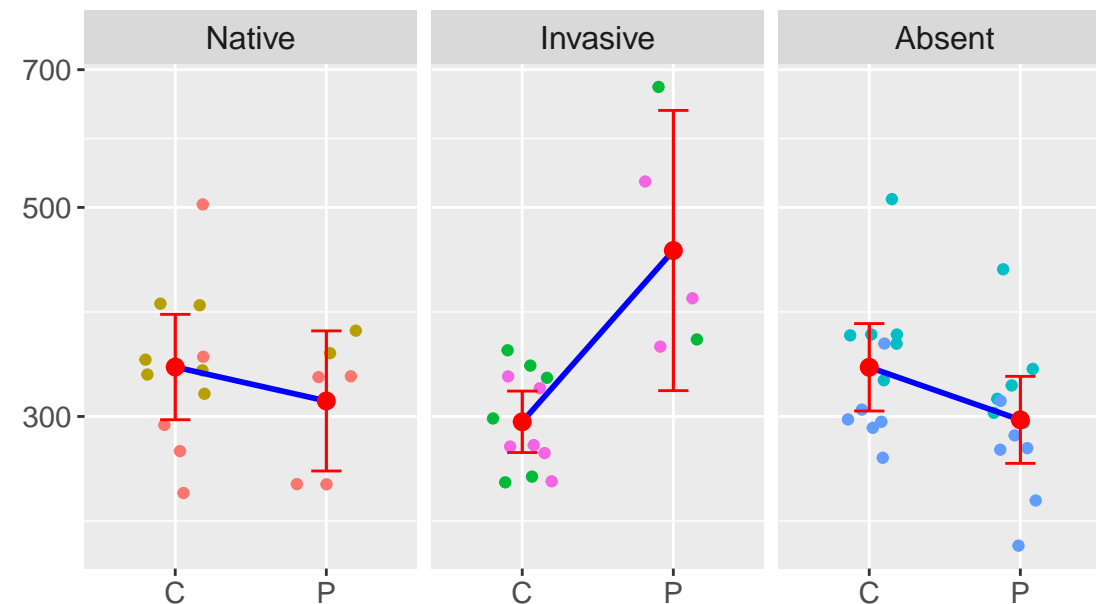

Na-dependent nutrient AA transporter 1-like

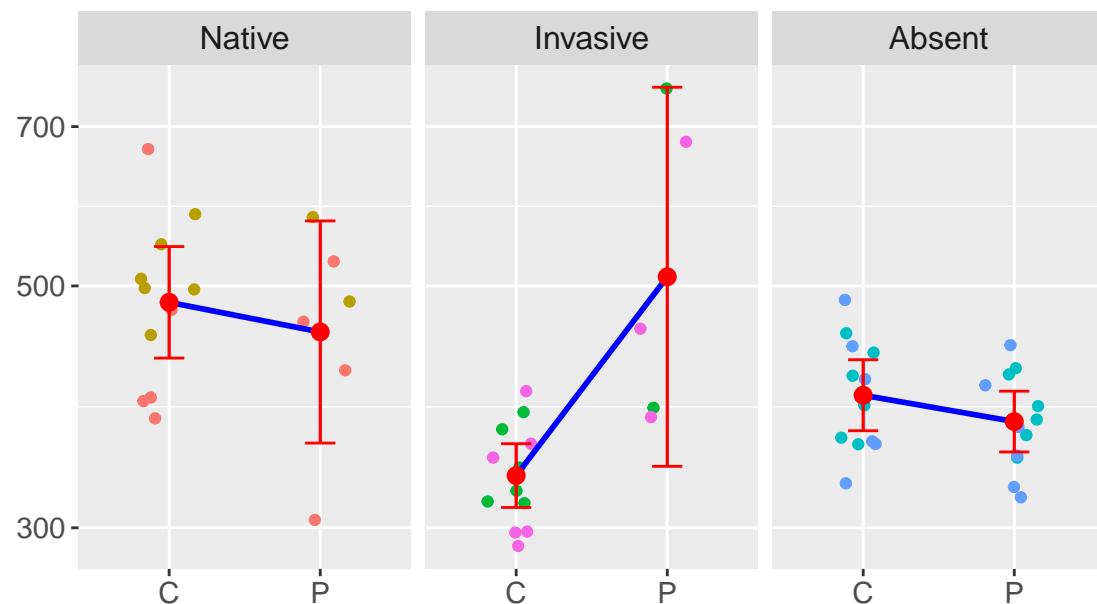

scaffold attachment factor B1

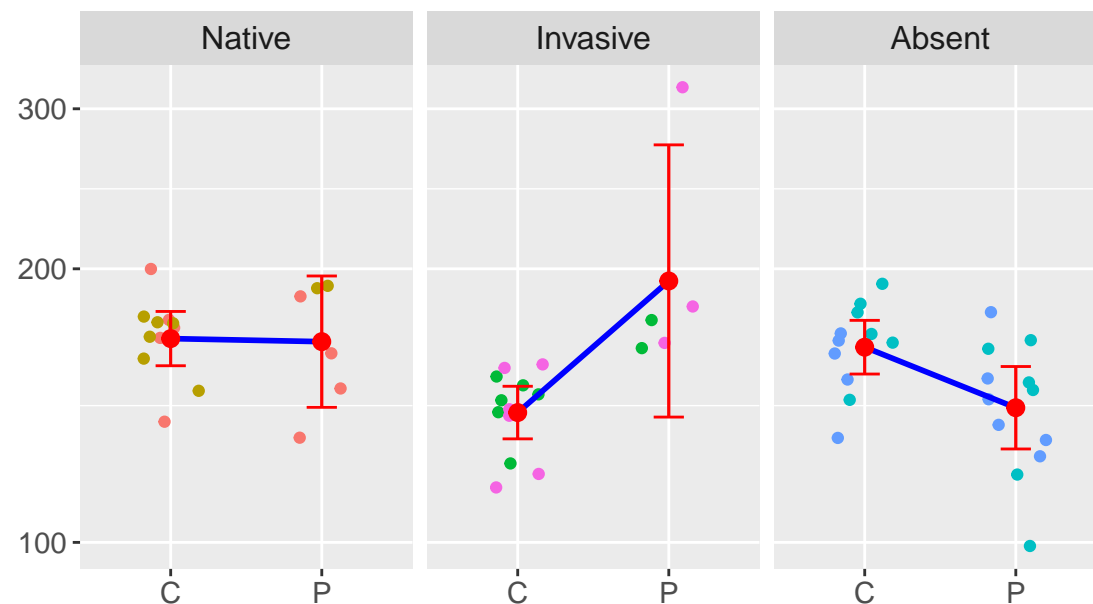

ATP-dependent RNA helicase DHX8-like

transcription initiation factor TFIID subunit 1-like

RNAPII subunit A C-term phosphatase SSU72-like

flightless 1-like
