

**laminin subunit alpha-4-like**

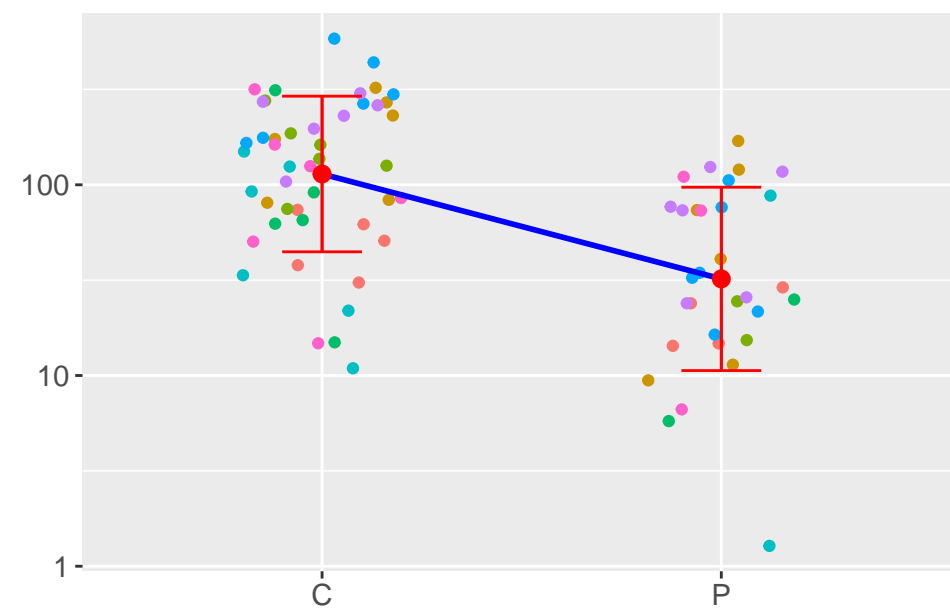

**cellular retinoic acid-binding protein 1-like**

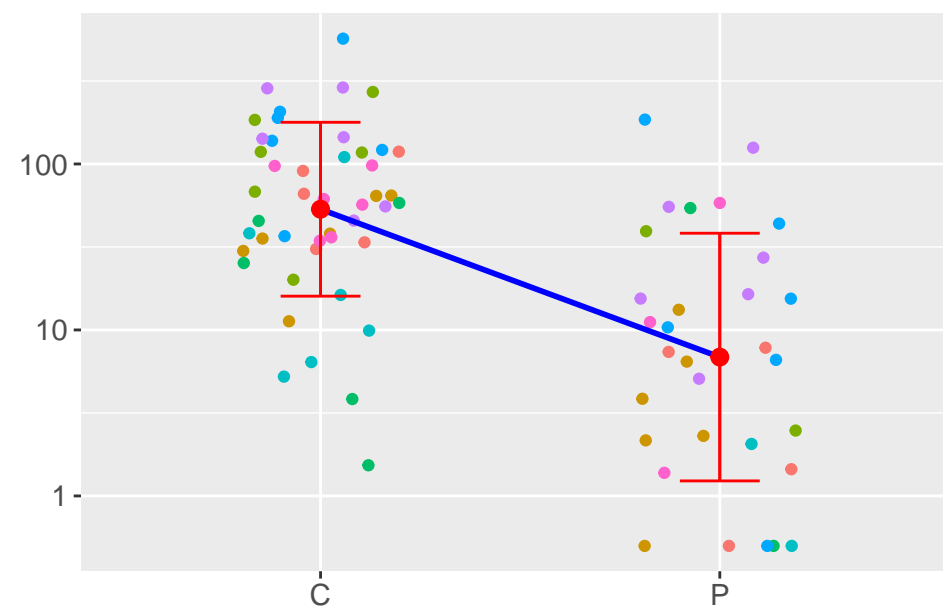

**glycogen debranching enzyme**

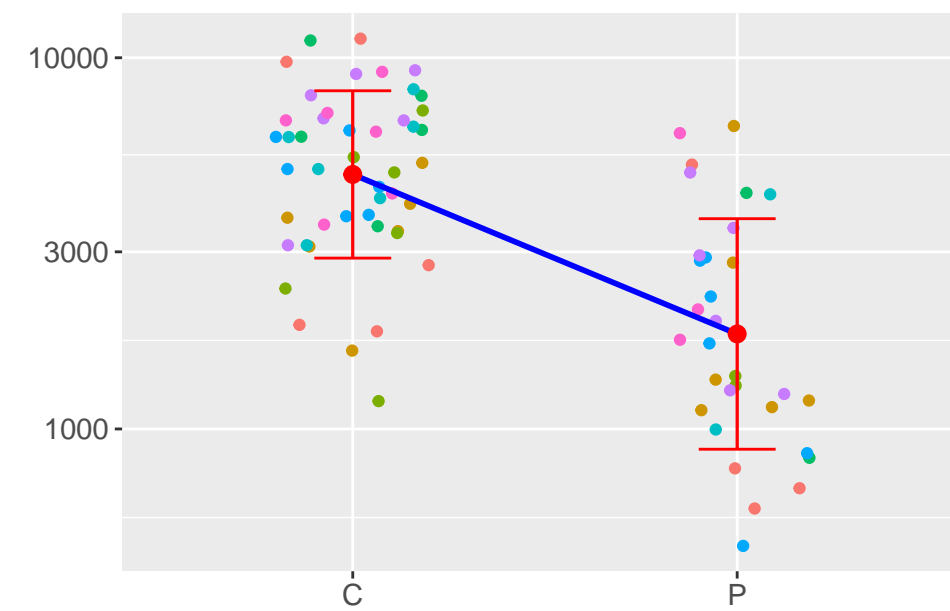

**V-type proton ATPase proteolipid subunit**

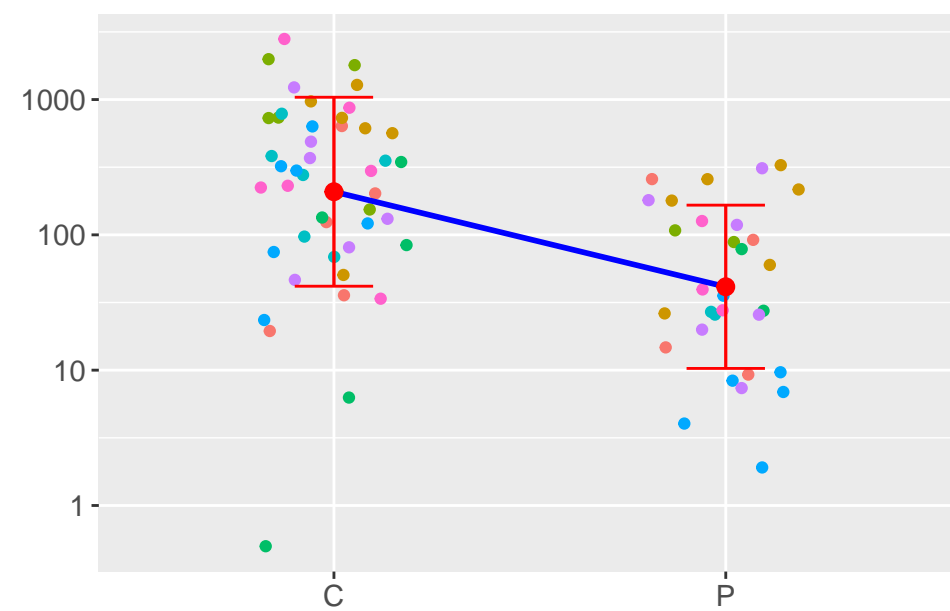

**C-type lectin 1**

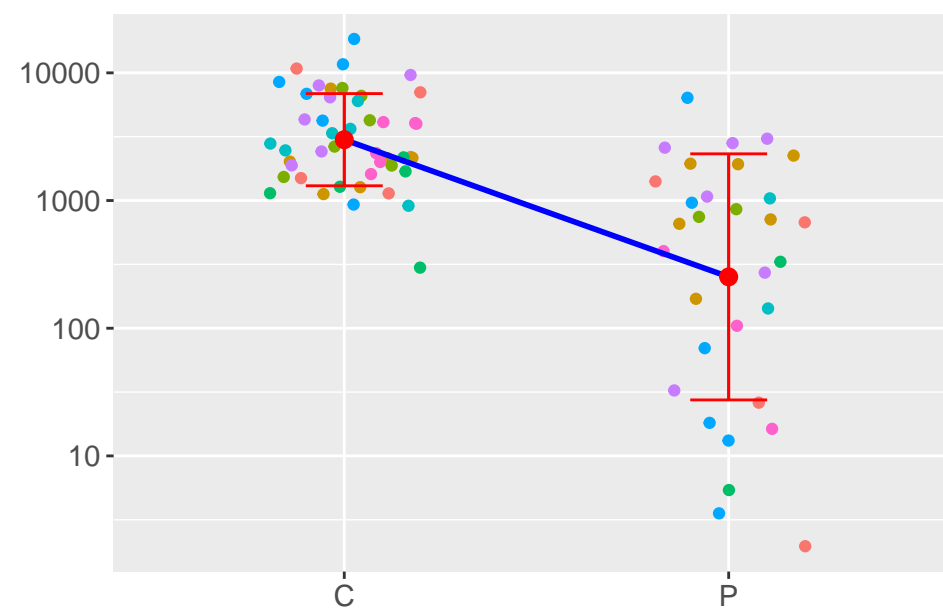

**ficolin-2-like**

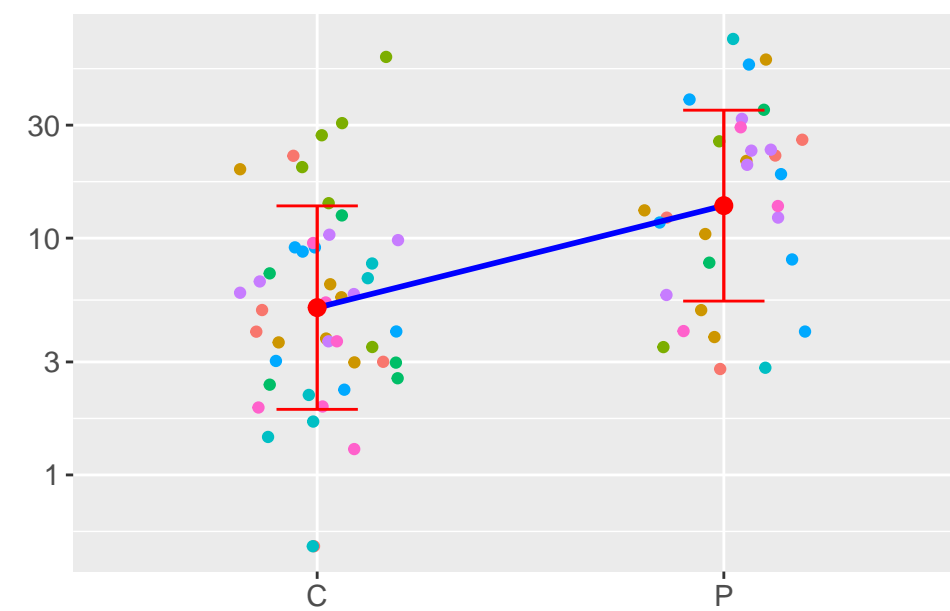

**hemolymph clottable protein**

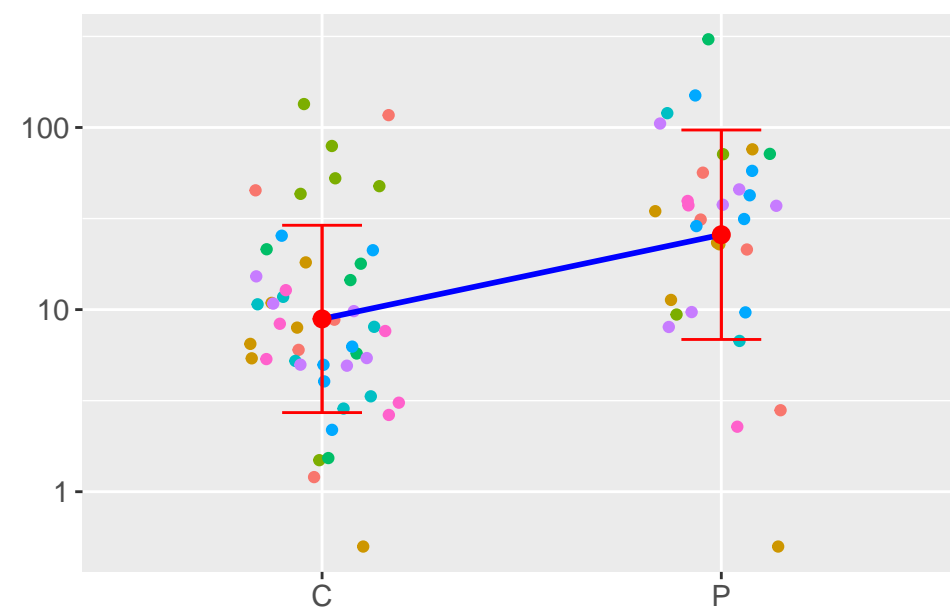

**D-3-phosphoglycerate dehydrogenase**

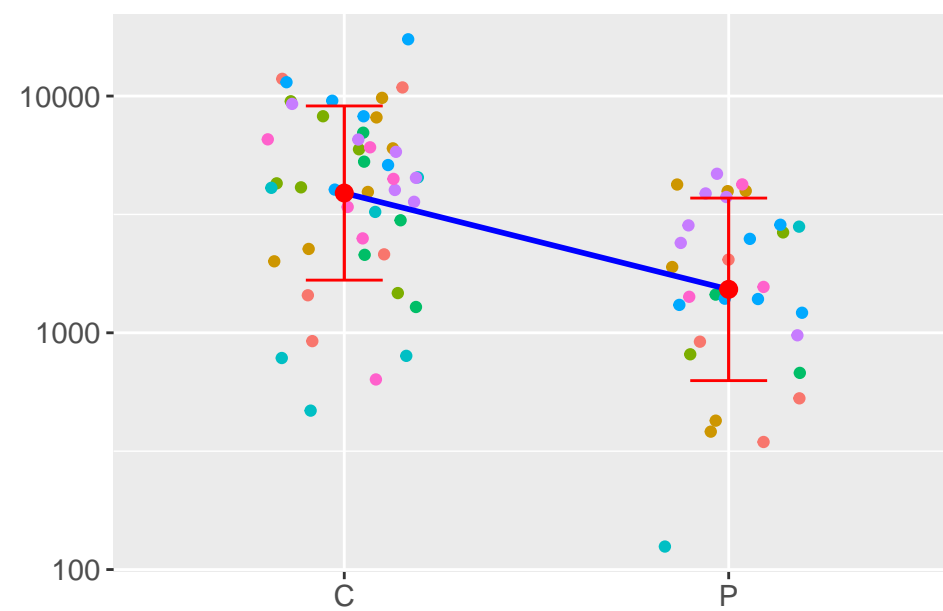

**dual oxidase maturation factor 1**

**dual oxidase 2-like**

**hemocytin-like**

**PDGF/VEGF-related factor 1**
